GENERAL EDUCATION

Section 1. Minnesota Statutes 2012, section 120A.20, subdivision 1, is amended to read:

Subdivision 1. **Age limitations; pupils.** (a) All schools supported in whole or in part by state funds are public schools. Admission to a public school is free to any person who: (1) resides within the district that operates the school; (2) is under 21 years of age or who meets the requirements of paragraph (c); and (3) satisfies the minimum age requirements imposed by this section. Notwithstanding the provisions of any law to the contrary, the conduct of all students under 21 years of age attending a public secondary school is governed by a single set of reasonable rules and regulations promulgated by the school board.

(b) A person shall not be admitted to a public school (1) as a kindergarten pupil, unless the pupil is at least five years of age on September 1 of the calendar year in which the school year for which the pupil seeks admission commences; or (2) as a 1st grade student, unless the pupil is at least six years of age on September 1 of the calendar year in which the school year for which the pupil seeks admission commences or has completed kindergarten; except that any school board may establish a policy for admission of selected pupils at an earlier age under section 124D.02.

(c) A pupil who becomes age 21 after enrollment is eligible for continued free public school enrollment until at least one of the following occurs: (1) the first September 1 after the pupil's 21st birthday; (2) the pupil's completion of the graduation requirements; (3) the pupil's withdrawal with no subsequent enrollment within 21 calendar days; or (4) the end of the school year.

Sec. 2. Minnesota Statutes 2012, section 120A.41, is amended to read:

120A.41 LENGTH OF SCHOOL YEAR; HOURS OF INSTRUCTION.

A school board's annual school calendar must include at least 425 hours of instruction for a kindergarten student without a disability, 935 hours of instruction for a student in grades 1 through 6, and 1,020 hours of instruction for a student in grades 7 through 12, not including summer school. ~~Nothing in this section permits a school district to adopt~~ The school calendar for all-day kindergarten must include at least 850 hours of instruction for the school year. A school board's annual calendar must include at least 165 days of instruction for a student in grades 1 through 11 unless a four-day week schedule unless has been approved by the commissioner under section 124D.126.

Sec. 3. Minnesota Statutes 2012, section 123A.73, subdivision 3, is amended to read:

Subd. 3. **Voluntary dissolution; referendum revenue.** As of the effective date of the voluntary dissolution of a district and its attachment to one or more existing districts pursuant to section 123A.46, the authorization for all referendum revenues previously approved by the voters of all affected districts for those districts pursuant to section 126C.17, subdivision 9, or its predecessor provision, is canceled. However, if all of the territory of any independent district is included in the enlarged district, and if the adjusted net tax capacity of taxable property in that territory comprises 90 percent or more of the adjusted net tax capacity of all taxable property in an enlarged district, the enlarged district's referendum revenue shall be determined as follows:

The referendum revenue shall be the revenue per ~~resident marginal cost~~ adjusted pupil unit times the number of ~~resident marginal cost~~ adjusted pupil units in the enlarged district. Any new referendum revenue shall be authorized only after approval is granted by the voters of the entire enlarged district in an election pursuant to section 126C.17, subdivision 9.

EFFECTIVE DATE. This section is effective for revenue for fiscal year 2015 and later.

Sec. 4. Minnesota Statutes 2012, section 123A.73, subdivision 4, is amended to read:

Subd. 4. **Consolidation; maximum authorized referendum revenues.** (a) As of the effective date of a consolidation pursuant to section 123A.48, if the plan for consolidation so provides, or if the plan for consolidation makes no provision concerning referendum revenues, the authorization for all referendum revenues previously approved by the voters of all affected districts for those districts pursuant to section 126C.17, subdivision 9, or its predecessor provision shall be recalculated as provided in this subdivision. The referendum revenue authorization for the newly created district shall be the revenue per ~~resident marginal cost~~ adjusted pupil unit that would raise an amount equal to the combined dollar amount of the referendum revenues authorized by each of the component districts for the year preceding the consolidation, unless the referendum revenue authorization of the newly created district is subsequently modified pursuant to section 126C.17, subdivision 9.

(b) The referendum allowance for a consolidated district in the years following consolidation equals the average of the consolidating districts' existing authorities for those years, weighted by the districts' ~~resident marginal cost~~ adjusted pupil units in the year preceding consolidation. For purposes of this calculation, the referendum authorities used for individual districts shall not decrease from year to year until such time as all existing authorities for all the consolidating districts have fully expired, but shall increase if they were originally approved with consumer price index-based or other annual increases.

(c) The referendum revenue authorization for the newly created district shall continue for a period of time equal to the longest period authorized for any component district.

EFFECTIVE DATE. This section is effective for revenue for fiscal year 2015 and later.

Sec. 5. Minnesota Statutes 2012, section 123A.73, subdivision 5, is amended to read:

Subd. 5. **Alternative method.** (a) As of the effective date of a consolidation pursuant to section 123A.48, if the plan for consolidation so provides, the authorization for all referendum revenues previously approved by the voters of all affected districts for those districts pursuant to section 126C.17, subdivision 9, or its predecessor provision shall be combined as provided in this subdivision. The referendum revenue authorization for the newly created district may be any allowance per ~~resident marginal cost~~ adjusted pupil unit provided in the plan for consolidation, but may not exceed the allowance per ~~resident marginal cost~~ adjusted pupil unit that would raise an amount equal to the combined dollar amount of the referendum revenues authorized by each of the component districts for the year preceding the consolidation.

(b) The referendum allowance for a consolidated district in the years following consolidation equals the average of the consolidating districts' existing authorities for those years, weighted by the districts' ~~resident marginal cost~~ adjusted pupil units in the year preceding consolidation. For purposes of this calculation, the referendum authorities used for individual districts shall not decrease from year to year until such time as all existing authorities for all the consolidating districts have fully expired, but shall increase if they were originally approved with consumer price index-based or other annual increases.

(c) The referendum revenue authorization for the newly created district shall continue for a period of time equal to the longest period authorized for any component district. The referendum revenue authorization for the newly created district may be modified pursuant to section 126C.17, subdivision 9.

EFFECTIVE DATE. This section is effective for revenue for fiscal year 2015 and later.

Sec. 6. Minnesota Statutes 2012, section 123B.41, subdivision 7, is amended to read:

Subd. 7. **Elementary pupils.** "Elementary pupils" means pupils in grades kindergarten through 6; provided, each kindergarten pupil in a half-day program shall be counted as one-half pupil for all computations pursuant to sections 123B.40 to 123B.42, and 123B.44 to 123B.48.

EFFECTIVE DATE. This section is effective for revenue for fiscal year 2015 and later.

Sec. 7. Minnesota Statutes 2012, section 123B.42, subdivision 3, is amended to read:

Subd. 3. **Cost; limitation.** (a) The cost per pupil of the textbooks, individualized instructional or cooperative learning materials, software or other educational technology, and standardized tests provided for in this section for each school year must not exceed the statewide average expenditure per pupil, adjusted pursuant to clause (b), by the Minnesota public elementary and secondary schools for textbooks, individualized instructional materials and standardized tests as computed and established by the department by February 1 of the preceding school year from the most recent public school year data then available.

(b) The cost computed in clause (a) shall be increased by an inflation adjustment equal to the percent of increase in the formula allowance, pursuant to section 126C.10, subdivision 2, from the second preceding school year to the current school year.

Notwithstanding the amount of the formula allowance for fiscal years 2015 and 2016 in section 126C.10, subdivision 2, the commissioner shall use the amount of the formula

allowance for the current year minus \$414 in determining the inflation adjustment for fiscal years 2015 and 2016.

(c) The commissioner shall allot to the districts or intermediary service areas the total cost for each school year of providing or loaning the textbooks, individualized instructional or cooperative learning materials, software or other educational technology, and standardized tests for the pupils in each nonpublic school. The allotment shall not exceed the product of the statewide average expenditure per pupil, according to clause (a), adjusted pursuant to clause (b), multiplied by the number of nonpublic school pupils who make requests pursuant to this section and who are enrolled as of September 15 of the current school year.

Sec. 8. Minnesota Statutes 2012, section 123B.88, subdivision 22, is amended to read:

Subd. 22. **Postsecondary enrollment options pupils.** Districts may provide bus transportation along school bus routes when space is available, for pupils attending programs at a postsecondary institution under the postsecondary enrollment options program. ~~The transportation is permitted only if it does not increase the district's expenditures for transportation.~~ Fees collected for this service under section 123B.36, subdivision 1, paragraph (13), shall be subtracted from the authorized cost for nonregular transportation for the purpose of section 123B.92. A school district may provide transportation for a pupil participating in an articulated program operated under an agreement between the school district and the postsecondary institution.

Sec. 9. Minnesota Statutes 2012, section 123B.92, subdivision 1, is amended to read:

Subdivision 1. **Definitions.** For purposes of this section and section 125A.76, the terms defined in this subdivision have the meanings given to them.

(a) "Actual expenditure per pupil transported in the regular and excess transportation categories" means the quotient obtained by dividing:

(1) the sum of:

(i) all expenditures for transportation in the regular category, as defined in paragraph (b), clause (1), and the excess category, as defined in paragraph (b), clause (2), plus

(ii) an amount equal to one year's depreciation on the district's school bus fleet and mobile units computed on a straight line basis at the rate of 15 percent per year for districts operating a program under section 124D.128 for grades 1 to 12 for all students in the district and 12-1/2 percent per year for other districts of the cost of the fleet, plus

(iii) an amount equal to one year's depreciation on the district's type III vehicles, as defined in section 169.011, subdivision 71, which must be used a majority of the time for

pupil transportation purposes, computed on a straight line basis at the rate of 20 percent per year of the cost of the type three school buses by:

(2) the number of pupils eligible for transportation in the regular category, as defined in paragraph (b), clause (1), and the excess category, as defined in paragraph (b), clause (2).

(b) "Transportation category" means a category of transportation service provided to pupils as follows:

(1) Regular transportation is:

(i) transportation to and from school during the regular school year for resident elementary pupils residing one mile or more from the public or nonpublic school they attend, and resident secondary pupils residing two miles or more from the public or nonpublic school they attend, excluding desegregation transportation and noon kindergarten transportation; but with respect to transportation of pupils to and from nonpublic schools, only to the extent permitted by sections 123B.84 to 123B.87;

(ii) transportation of resident pupils to and from language immersion programs;

(iii) transportation of a pupil who is a custodial parent and that pupil's child between the pupil's home and the child care provider and between the provider and the school, if the home and provider are within the attendance area of the school;

(iv) transportation to and from or board and lodging in another district, of resident pupils of a district without a secondary school; and

(v) transportation to and from school during the regular school year required under subdivision 3 for nonresident elementary pupils when the distance from the attendance area border to the public school is one mile or more, and for nonresident secondary pupils when the distance from the attendance area border to the public school is two miles or more, excluding desegregation transportation and noon kindergarten transportation.

For the purposes of this paragraph, a district may designate a licensed day care facility, school day care facility, respite care facility, the residence of a relative, or the residence of a person or other location chosen by the pupil's parent or guardian, or an after-school program for children operated by a political subdivision of the state, as the home of a pupil for part or all of the day, if requested by the pupil's parent or guardian, and if that facility, residence, or program is within the attendance area of the school the pupil attends.

(2) Excess transportation is:

(i) transportation to and from school during the regular school year for resident secondary pupils residing at least one mile but less than two miles from the public or nonpublic school they attend, and transportation to and from school for resident pupils residing less than one mile from school who are transported because of full-service school zones, extraordinary traffic, drug, or crime hazards; and

(ii) transportation to and from school during the regular school year required under subdivision 3 for nonresident secondary pupils when the distance from the attendance area border to the school is at least one mile but less than two miles from the public school they attend, and for nonresident pupils when the distance from the attendance area border to the school is less than one mile from the school and who are transported because of full-service school zones, extraordinary traffic, drug, or crime hazards.

(3) Desegregation transportation is transportation within and outside of the district during the regular school year of pupils to and from schools located outside their normal attendance areas under a plan for desegregation mandated by the commissioner or under court order.

(4) "Transportation services for pupils with disabilities" is:

(i) transportation of pupils with disabilities who cannot be transported on a regular school bus between home or a respite care facility and school;

(ii) necessary transportation of pupils with disabilities from home or from school to other buildings, including centers such as developmental achievement centers, hospitals, and treatment centers where special instruction or services required by sections 125A.03 to 125A.24, 125A.26 to 125A.48, and 125A.65 are provided, within or outside the district where services are provided;

(iii) necessary transportation for resident pupils with disabilities required by sections 125A.12, and 125A.26 to 125A.48;

(iv) board and lodging for pupils with disabilities in a district maintaining special classes;

(v) transportation from one educational facility to another within the district for resident pupils enrolled on a shared-time basis in educational programs, and necessary transportation required by sections 125A.18, and 125A.26 to 125A.48, for resident pupils with disabilities who are provided special instruction and services on a shared-time basis or if resident pupils are not transported, the costs of necessary travel between public and private schools or neutral instructional sites by essential personnel employed by the district's program for children with a disability;

(vi) transportation for resident pupils with disabilities to and from board and lodging facilities when the pupil is boarded and lodged for educational purposes;

(vii) transportation of pupils for a curricular field trip activity on a school bus equipped with a power lift when the power lift is required by a student's disability or section 504 plan; and

(viii) services described in clauses (i) to (vii), when provided for pupils with disabilities in conjunction with a summer instructional program that relates to the

pupil's individualized education program or in conjunction with a learning year program established under section 124D.128.

For purposes of computing special education initial aid under section 125A.76, ~~subdivision 2~~, the cost of providing transportation for children with disabilities includes (A) the additional cost of transporting a homeless student from a temporary nonshelter home in another district to the school of origin, or a formerly homeless student from a permanent home in another district to the school of origin but only through the end of the academic year; and (B) depreciation on district-owned school buses purchased after July 1, 2005, and used primarily for transportation of pupils with disabilities, calculated according to paragraph (a), clauses (ii) and (iii). Depreciation costs included in the disabled transportation category must be excluded in calculating the actual expenditure per pupil transported in the regular and excess transportation categories according to paragraph (a). For purposes of subitem (A), a school district may transport a child who does not have a school of origin to the same school attended by that child's sibling, if the siblings are homeless.

(5) "Nonpublic nonregular transportation" is:

(i) transportation from one educational facility to another within the district for resident pupils enrolled on a shared-time basis in educational programs, excluding transportation for nonpublic pupils with disabilities under clause (4);

Sec. 10. Minnesota Statutes 2012, section 123B.92, subdivision 5, is amended to read:

Subd. 5. **District reports.** (a) Each district must report data to the department as required by the department to account for transportation expenditures.

(b) Salaries and fringe benefits of district employees whose primary duties are other than transportation, including central office administrators and staff, building administrators and staff, teachers, social workers, school nurses, and instructional aides,

10.1 must not be included in a district's transportation expenditures, except that a district may
10.2 include salaries and benefits according to paragraph (c) for (1) an employee designated
10.3 as the district transportation director, (2) an employee providing direct support to the
10.4 transportation director, or (3) an employee providing direct transportation services such as
10.5 a bus driver or bus aide.

10.6 (c) Salaries and fringe benefits of the district employees listed in paragraph (b),
10.7 clauses (1), (2), and (3), who work part time in transportation and part time in other areas
10.8 must not be included in a district's transportation expenditures unless the district maintains
10.9 documentation of the employee's time spent on pupil transportation matters in the form
10.10 and manner prescribed by the department.

10.11 (d) A school district that contracts for transportation service may allocate
10.12 transportation expense to transportation categories based upon contract rates. Districts
10.13 may only allocate transportation expense to transportation categories based upon contract
10.14 rates if contract rates are reasonably consistent on a cost-per-hour, cost-per-mile,

10.19 leased buses, student board and lodging, crossing guards, and aides on buses, ~~must~~ may
10.20 be allocated among transportation categories based on cost-per-mile or cost-per-student
10.21 regardless of whether the transportation services are provided on district-owned or
10.22 contractor-owned school buses. Expenditures for school bus driver salaries and fringe
10.23 benefits may either be directly charged to the appropriate transportation category or may
10.24 be allocated among transportation categories based on cost-per-mile or cost-per-student.
10.25 Expenditures by private contractors or individuals who provide transportation exclusively
10.26 in one transportation category must be charged directly to the appropriate transportation
10.27 category. Transportation services provided by contractor-owned school bus companies

Subdivision 1. **Kindergarten instruction.** The board may establish and maintain one or more kindergartens for the instruction of children and after July 1, 1974, shall provide kindergarten instruction for all eligible children, either in the district or in another district. All children to be eligible for kindergarten must be at least five years of age on September 1 of the calendar year in which the school year commences. In addition all children selected under an early admissions policy established by the school board may be admitted. If established, a board-adopted early admissions policy must describe the process and procedures for comprehensive evaluation in cognitive, social, and emotional developmental domains to help determine the child's ability to meet kindergarten grade expectations and progress to first grade in the subsequent year. The comprehensive evaluation must use valid and reliable instrumentation, be aligned with state kindergarten expectations, and include a parent report and teacher observations of the child's knowledge, skills, and abilities. The early admissions policy must be made available to parents in an accessible format and is subject to review by the commissioner of education. The evaluation is subject to section 127A.41. Nothing in this section shall prohibit a school district from establishing Head Start, prekindergarten, or nursery school classes for children below kindergarten age. Any school board with evidence that providing kindergarten will cause an extraordinary hardship on the school district may apply to the commissioner of education for an exception.

The record system and identification must ensure that the program will not have the effect of increasing the total average daily membership attributable to an individual pupil as a result of a learning year program. The record system must include the date the pupil originally enrolled in a learning year program, the pupil's grade level, the date of each grade promotion, the average daily membership generated in each grade level, the number of credits or standards earned, and the number needed to graduate.

~~(d)~~ (c) A student who has not completed a school district's graduation requirements may continue to enroll in courses the student must complete in order to graduate until the student satisfies the district's graduation requirements or the student is 21 years old, whichever comes first.

14.6 (c) The district must recognize the full amount of this levy as revenue for the fiscal
14.7 year in which it is certified.

14.27 aid shall be reduced proportionately.

14.28 **Subd. 2. Allocation from cooperative centers and intermediate districts.** For

For purposes of calculating the levy revenue guarantee under subdivision 3, the career and technical education ~~levy authority~~ revenue for the previous fiscal year is the ~~levy authority~~ revenue according to Minnesota Statutes 2010, section 124D.4531, before adjustments to meet the statewide levy revenue target.

33.2 and later.

33.3 Sec. 48. Minnesota Statutes 2012, section 126C.15, subdivision 2, is amended to read:

33.4 Subd. 2. **Building allocation.** (a) A district or cooperative must allocate its
33.5 compensatory revenue to each school building in the district or cooperative where
33.6 the children who have generated the revenue are served unless the school district or
33.7 cooperative has received permission under Laws 2005, First Special Session chapter 5,
33.8 article 1, section 50, to allocate compensatory revenue according to student performance
33.9 measures developed by the school board.

33.10 (b) Notwithstanding paragraph (a), a district or cooperative may allocate up to
33.11 five percent of the amount of compensatory revenue that the district receives to school
33.12 sites according to a plan adopted by the school board, and a district or cooperative may
33.13 allocate up to an additional five percent of its compensatory revenue for activities under
33.14 subdivision 1, clause (10), according to a plan adopted by the school board. The money

33.23 closings, changes in attendance area boundaries, or other changes in programs or student
33.24 demographics between the prior year and the current year may reallocate compensatory
33.25 revenue among sites to reflect these changes. A district or cooperative must report to the
33.26 department any adjustments it makes according to this paragraph and the department must
33.27 use the adjusted compensatory revenue allocations in preparing the report required under
33.28 section 123B.76, subdivision 3, paragraph (c).

33.29 **EFFECTIVE DATE.** This section is effective for revenue for fiscal year 2014
33.30 and later.

33.31 Sec. 49. Minnesota Statutes 2012, section 126C.17, is amended to read:

33.32 **126C.17 REFERENDUM REVENUE.**

Subdivision 1. **Referendum allowance.** ~~(a) For fiscal year 2003 and later, a district's initial referendum revenue allowance equals the sum of the allowance under section 126C.16, subdivision 2, plus any additional allowance per resident marginal cost pupil unit authorized under subdivision 9 before May 1, 2001, for fiscal year 2002 and later, plus the referendum conversion allowance approved under subdivision 13, minus \$415. For districts with more than one referendum authority, the reduction must be computed separately for each authority. The reduction must be applied first to the referendum conversion allowance and next to the authority with the earliest expiration date. A district's initial referendum revenue allowance may not be less than zero.~~

~~(b) For fiscal year 2003, a district's referendum revenue allowance equals the initial referendum allowance plus any additional allowance per resident marginal cost pupil unit authorized under subdivision 9 between April 30, 2001, and December 30, 2001, for fiscal year 2003 and later.~~

~~(c) For fiscal year 2004 and later, a district's referendum revenue allowance equals the sum of:~~

~~(1) the product of (i) the ratio of the resident marginal cost pupil units the district would have counted for fiscal year 2004 under Minnesota Statutes 2002, section 126C.05, to the district's resident marginal cost pupil units for fiscal year 2004, times (ii) the initial referendum allowance plus any additional allowance per resident marginal cost pupil unit authorized under subdivision 9 between April 30, 2001, and May 30, 2003, for fiscal year 2003 and later, plus~~

~~(2) any additional allowance per resident marginal cost pupil unit authorized under subdivision 9 after May 30, 2003, for fiscal year 2005 and later.~~

(a) A district's initial referendum allowance for fiscal year 2015 equals the result of the following calculations:

(1) multiply the referendum allowance the district would have received for fiscal year 2015 under Minnesota Statutes 2012, section 126C.17, subdivision 1, based on elections held before July 1, 2013, by the resident marginal cost pupil units the district would have counted for fiscal year 2015 under Minnesota Statutes 2012, section 126C.05;

(2) add to the result of clause (1) the adjustment the district would have received under Minnesota Statutes 2012, section 127A.47, subdivision 7, paragraphs (a), (b), and (c), based on elections held before July 1, 2013;

(3) divide the result of clause (2) by the district's adjusted pupil units for fiscal year 2015; and

(4) if the result of clause (3) is less than zero, set the allowance to zero.

(b) A district's referendum allowance equals the sum of the district's initial referendum allowance for fiscal year 2015, plus any additional referendum allowance per adjusted pupil unit authorized after June 30, 2013, minus any allowances expiring in fiscal year 2016 or later. For a district with more than one referendum allowance for fiscal year 2015 under Minnesota Statutes 2012, section 126C.17, the allowance calculated under paragraph (a) must be divided into components such that the same percentage of the district's allowance expires at the same time as the old allowances would have expired under Minnesota Statutes 2012, section 126C.17.

Subd. 2. **Referendum allowance limit.** (a) Notwithstanding subdivision 1, for fiscal year ~~2007~~ 2015 and later, a district's referendum allowance must not exceed the greater of:

~~(1) the sum of: (i) a district's referendum allowance for fiscal year 1994 times 1.177 times the annual inflationary increase as calculated under paragraph (b) plus (ii) its referendum conversion allowance for fiscal year 2003, minus (iii) \$215;~~

~~(2) the greater of (i): 26 percent of the formula allowance or (ii) \$1,294 times the annual inflationary increase as calculated under paragraph (b); or times the greatest of:~~

~~(1) \$1,845;~~

~~(2) the sum of the referendum revenue the district would have received for fiscal year 2015 under Minnesota Statutes 2012, section 126C.17, subdivision 4, based on elections held before July 1, 2013, and the adjustment the district would have received under Minnesota Statutes 2012, section 127A.47, subdivision 7, paragraphs (a), (b), and (c), based on elections held before July 1, 2013, divided by the district's adjusted pupil units for fiscal year 2015; or~~

~~(3) the product of the referendum allowance limit the district would have received for fiscal year 2015 under Minnesota Statutes 2012, section 126C.17, subdivision 2, and the resident marginal cost pupil units the district would have received for fiscal year 2015 under Minnesota Statutes 2012, section 126C.05, subdivision 6, plus the adjustment the district would have received under Minnesota Statutes 2012, section 127A.47, subdivision 7, paragraphs (a), (b), and (c), based on elections held before July 1, 2013, divided by the district's adjusted pupil units for fiscal year 2015; or~~

~~(3)~~ (4) for a newly reorganized district created after July 1, ~~2006~~ 2013, the referendum revenue authority for each reorganizing district in the year preceding reorganization divided by its ~~resident marginal cost~~ adjusted pupil units for the year preceding reorganization.

(b) For purposes of this subdivision, for fiscal year ~~2005~~ 2016 and later, "inflationary increase" means one plus the percentage change in the Consumer Price Index for urban consumers, as prepared by the United States Bureau of Labor Standards, for the current fiscal year to fiscal year ~~2004~~ 2015. For fiscal years ~~2009~~ year 2016 and later, for purposes

of paragraph (a), clause ~~(1)~~ (3), the inflationary increase equals ~~the inflationary increase~~
for fiscal year 2008 plus one-fourth of the percentage increase in the formula allowance
for that year compared with the formula allowance for fiscal year 2008 2015.

Subd. 3. **Sparsity exception.** A district that qualifies for sparsity revenue under
section 126C.10 is not subject to a referendum allowance limit.

Subd. 4. **Total referendum revenue.** The total referendum revenue for each district
equals the district's referendum allowance times the ~~resident marginal cost~~ adjusted pupil
units for the school year.

Subd. 5. **Referendum equalization revenue.** (a) ~~For fiscal year 2003 and later,~~
A district's referendum equalization revenue equals the sum of the first tier referendum
equalization revenue and the second tier referendum equalization revenue.

(b) A district's first tier referendum equalization revenue equals the district's first
tier referendum equalization allowance times the district's ~~resident marginal cost~~ adjusted
pupil units for that year.

(c) ~~For fiscal year 2006, a district's first tier referendum equalization allowance~~
~~equals the lesser of the district's referendum allowance under subdivision 1 or \$500. For~~
~~fiscal year 2007, a district's first tier referendum equalization allowance equals the lesser~~
~~of the district's referendum allowance under subdivision 1 or \$600.~~

~~For fiscal year 2008 and later,~~ A district's first tier referendum equalization allowance
equals the lesser of the district's referendum allowance under subdivision 1 or ~~\$700~~ \$760.

(d) A district's second tier referendum equalization revenue equals the district's
second tier referendum equalization allowance times the district's ~~resident marginal cost~~
adjusted pupil units for that year.

(e) ~~For fiscal year 2006, a district's second tier referendum equalization allowance~~
~~equals the lesser of the district's referendum allowance under subdivision 1 or 18.6 percent~~
~~of the formula allowance, minus the district's first tier referendum equalization allowance.~~
~~For fiscal year 2007 and later,~~ A district's second tier referendum equalization allowance
equals the lesser of the district's referendum allowance under subdivision 1 or ~~26~~ 25 percent
of the formula allowance, minus the district's first tier referendum equalization allowance.

(f) Notwithstanding paragraph (e), the second tier referendum allowance for a
district qualifying for secondary sparsity revenue under section 126C.10, subdivision 7, or
elementary sparsity revenue under section 126C.10, subdivision 8, equals the district's
referendum allowance under subdivision 1 minus the district's first tier referendum
equalization allowance.

37.1 Subd. 6. **Referendum equalization levy.** (a) For fiscal year 2003 and later,
37.2 a district's referendum equalization levy equals the sum of the first tier referendum
37.3 equalization levy and the second tier referendum equalization levy.

37.4 (b) A district's first tier referendum equalization levy equals the district's first tier
37.5 referendum equalization revenue times the lesser of one or the ratio of the district's
37.6 referendum market value per resident ~~marginal-cost~~ pupil unit to ~~\$476,000~~ \$510,000.

37.7 (c) A district's second tier referendum equalization levy equals the district's second
37.8 tier referendum equalization revenue times the lesser of one or the ratio of the district's
37.9 referendum market value per resident ~~marginal-cost~~ pupil unit to ~~\$270,000~~ \$290,000.

37.10 Subd. 7. **Referendum equalization aid.** (a) A district's referendum equalization aid
37.11 equals the difference between its referendum equalization revenue and levy.

37.12 (b) If a district's actual levy for first or second tier referendum equalization revenue
37.13 is less than its maximum levy limit for that tier, aid shall be proportionately reduced.

37.14 (c) Notwithstanding paragraph (a), the referendum equalization aid for a district,
37.15 where the referendum equalization aid under paragraph (a) exceeds 90 percent of the
37.16 referendum revenue, must not exceed ~~26~~ 25 percent of the formula allowance times the
37.17 district's ~~resident-marginal-cost~~ adjusted pupil units. A district's referendum levy is
37.18 increased by the amount of any reduction in referendum aid under this paragraph.

37.19 Subd. 7a. **Referendum tax base replacement aid.** For each school district that
37.20 had a referendum allowance for fiscal year 2002 exceeding \$415, for each separately
37.21 authorized referendum levy, the commissioner of revenue, in consultation with the
37.22 commissioner of education, shall certify the amount of the referendum levy in taxes
37.23 payable year 2001 attributable to the portion of the referendum allowance exceeding \$415
37.24 levied against property classified as class 2, noncommercial 4c(1), or 4c(4), under section
37.25 273.13, excluding the portion of the tax paid by the portion of class 2a property consisting
37.26 of the house, garage, and surrounding one acre of land. The resulting amount must be
37.27 used to reduce the district's referendum levy amount otherwise determined, and must be
37.28 paid to the district each year that the referendum authority remains in effect, is renewed,
37.29 or new referendum authority is approved. The aid payable under this subdivision must
37.30 be subtracted from the district's referendum equalization aid under subdivision 7. The
37.31 referendum equalization aid after the subtraction must not be less than zero.

37.32 Subd. 7b. **Referendum aid guarantee.** (a) Notwithstanding subdivision 7, a
37.33 district's referendum equalization aid for fiscal year 2015 must not be less than the sum
37.34 of the referendum equalization aid the district would have received for fiscal year 2015
37.35 under Minnesota Statutes 2012, section 126C.17, subdivision 7, and the adjustment the

district would have received under Minnesota Statutes 2012, section 127A.47, subdivision 7, paragraphs (a), (b), and (c).

(b) Notwithstanding subdivision 7, referendum equalization aid for fiscal year 2016 and later, for a district qualifying for additional aid under paragraph (a) for fiscal year 2015, must not be less than the product of (1) the district's referendum equalization aid for fiscal year 2015, times (2) the lesser of one or the ratio of the district's referendum revenue for that school year to the district's referendum revenue for fiscal year 2015, times (3) the lesser of one or the ratio of the district's referendum market value used for fiscal year 2015 referendum equalization calculations to the district's referendum market value used for that year's referendum equalization calculations.

Subd. 8. **Unequalized referendum levy.** Each year, a district may levy an amount equal to the difference between its total referendum revenue according to subdivision 4 and its referendum equalization revenue according to subdivision 5.

Subd. 9. **Referendum revenue.** (a) The revenue authorized by section 126C.10, subdivision 1, may be increased in the amount approved by the voters of the district at a referendum called for the purpose. The referendum may be called by the board. The referendum must be conducted one or two calendar years before the increased levy authority, if approved, first becomes payable. Only one election to approve an increase may be held in a calendar year. Unless the referendum is conducted by mail under subdivision 11, paragraph (a), the referendum must be held on the first Tuesday after the first Monday in November. The ballot must state the maximum amount of the increased revenue per ~~resident marginal cost~~ adjusted pupil unit. The ballot may state a schedule, determined by the board, of increased revenue per ~~resident marginal cost~~ adjusted pupil unit that differs from year to year over the number of years for which the increased revenue is authorized or may state that the amount shall increase annually by the rate of inflation. For this purpose, the rate of inflation shall be the annual inflationary increase calculated under subdivision 2, paragraph (b). The ballot may state that existing referendum levy authority is expiring. In this case, the ballot may also compare the proposed levy authority to the existing expiring levy authority, and express the proposed increase as the amount, if any, over the expiring referendum levy authority. The ballot must designate the specific number of years, not to exceed ten, for which the referendum authorization applies. The ballot, including a ballot on the question to revoke or reduce the increased revenue amount under paragraph (c), must abbreviate the term "per ~~resident marginal cost~~ adjusted pupil unit" as "per pupil." The notice required under section 275.60 may be modified to read, in cases of renewing existing levies at the same amount per pupil as in the previous year:

39.1 "BY VOTING "YES" ON THIS BALLOT QUESTION, YOU ARE VOTING
39.2 TO EXTEND AN EXISTING PROPERTY TAX REFERENDUM THAT IS
39.3 SCHEDULED TO EXPIRE."

39.4 The ballot may contain a textual portion with the information required in this
39.5 subdivision and a question stating substantially the following:

39.6 "Shall the increase in the revenue proposed by (petition to) the board of,
39.7 School District No. ..., be approved?"

39.8 If approved, an amount equal to the approved revenue per ~~resident marginal cost~~
39.9 adjusted pupil unit times the ~~resident marginal cost~~ adjusted pupil units for the school
39.10 year beginning in the year after the levy is certified shall be authorized for certification
39.11 for the number of years approved, if applicable, or until revoked or reduced by the voters
39.12 of the district at a subsequent referendum.

39.13 (b) The board must prepare and deliver by first class mail at least 15 days but no more
39.14 than 30 days before the day of the referendum to each taxpayer a notice of the referendum
39.15 and the proposed revenue increase. The board need not mail more than one notice to any
39.16 taxpayer. For the purpose of giving mailed notice under this subdivision, owners must be
39.17 those shown to be owners on the records of the county auditor or, in any county where
39.18 tax statements are mailed by the county treasurer, on the records of the county treasurer.
39.19 Every property owner whose name does not appear on the records of the county auditor
39.20 or the county treasurer is deemed to have waived this mailed notice unless the owner
39.21 has requested in writing that the county auditor or county treasurer, as the case may be,
39.22 include the name on the records for this purpose. The notice must project the anticipated
39.23 amount of tax increase in annual dollars for typical residential homesteads, agricultural
39.24 homesteads, apartments, and commercial-industrial property within the school district.

39.25 The notice for a referendum may state that an existing referendum levy is expiring
39.26 and project the anticipated amount of increase over the existing referendum levy in
39.27 the first year, if any, in annual dollars for typical residential homesteads, agricultural
39.28 homesteads, apartments, and commercial-industrial property within the district.

39.29 The notice must include the following statement: "Passage of this referendum will
39.30 result in an increase in your property taxes." However, in cases of renewing existing levies,
39.31 the notice may include the following statement: "Passage of this referendum extends an
39.32 existing operating referendum at the same amount per pupil as in the previous year."

39.33 (c) A referendum on the question of revoking or reducing the increased revenue
39.34 amount authorized pursuant to paragraph (a) may be called by the board. A referendum to
39.35 revoke or reduce the revenue amount must state the amount per resident marginal cost
39.36 pupil unit by which the authority is to be reduced. Revenue authority approved by the

voters of the district pursuant to paragraph (a) must be available to the school district at least once before it is subject to a referendum on its revocation or reduction for subsequent years. Only one revocation or reduction referendum may be held to revoke or reduce referendum revenue for any specific year and for years thereafter.

(d) The approval of 50 percent plus one of those voting on the question is required to pass a referendum authorized by this subdivision.

(e) At least 15 days before the day of the referendum, the district must submit a copy of the notice required under paragraph (b) to the commissioner and to the county auditor of each county in which the district is located. Within 15 days after the results of the referendum have been certified by the board, or in the case of a recount, the certification of the results of the recount by the canvassing board, the district must notify the commissioner of the results of the referendum.

Subd. 10. **School referendum levy; market value.** A school referendum levy must be levied against the referendum market value of all taxable property as defined in section 126C.01, subdivision 3. Any referendum levy amount subject to the requirements of this subdivision must be certified separately to the county auditor under section 275.07.

Subd. 11. **Referendum date.** (a) Except for a referendum held under paragraph (b), any referendum under this section held on a day other than the first Tuesday after the first Monday in November must be conducted by mail in accordance with section 204B.46. Notwithstanding subdivision 9, paragraph (b), to the contrary, in the case of a referendum conducted by mail under this paragraph, the notice required by subdivision 9, paragraph (b), must be prepared and delivered by first-class mail at least 20 days before the referendum.

(b) In addition to the referenda allowed in subdivision 9, clause (a), the commissioner may grant authority to a district to hold a referendum on a different day if the district is in statutory operating debt and has an approved plan or has received an extension from the department to file a plan to eliminate the statutory operating debt.

(c) The commissioner must approve, deny, or modify each district's request for a referendum levy on a different day within 60 days of receiving the request from a district.

Subd. 13. **Referendum conversion allowance.** A school district that received supplemental or transition revenue in fiscal year 2002 may convert its supplemental revenue conversion allowance and transition revenue conversion allowance to additional referendum allowance under subdivision 1 for fiscal year 2003 and thereafter. A majority of the school board must approve the conversion at a public meeting before November 1, 2001. For a district with other referendum authority, the referendum conversion allowance approved by the board continues until the portion of the district's other referendum authority with the earliest expiration date after June 30, 2006, expires. For a district

41.1 with no other referendum authority, the referendum conversion allowance approved by
41.2 the board continues until June 30, 2012.

41.3 **EFFECTIVE DATE.** This section is effective for revenue for fiscal year 2015
41.4 and later.

41.5 Sec. 50. Minnesota Statutes 2012, section 126C.20, is amended to read:

41.6 **126C.20 ANNUAL GENERAL EDUCATION AID APPROPRIATION.**

41.7 There is annually appropriated from the general fund to the department the

41.15 Sec. 51. Minnesota Statutes 2012, section 126C.40, subdivision 1, is amended to read:

41.16 Subdivision 1. **To lease building or land.** (a) When an independent or a special
41.17 school district or a group of independent or special school districts finds it economically
41.18 advantageous to rent or lease a building or land for any instructional purposes or for
41.19 school storage or furniture repair, and it determines that the operating capital revenue
41.20 authorized under section 126C.10, subdivision 13, is insufficient for this purpose, it may
41.21 apply to the commissioner for permission to make an additional capital expenditure levy
41.22 for this purpose. An application for permission to levy under this subdivision must contain
41.23 financial justification for the proposed levy, the terms and conditions of the proposed
41.24 lease, and a description of the space to be leased and its proposed use.

41.25 (b) The criteria for approval of applications to levy under this subdivision must
41.26 include: the reasonableness of the price, the appropriateness of the space to the proposed
41.27 activity, the feasibility of transporting pupils to the leased building or land, conformity
41.28 of the lease to the laws and rules of the state of Minnesota, and the appropriateness of
41.29 the proposed lease to the space needs and the financial condition of the district. The
41.30 commissioner must not authorize a levy under this subdivision in an amount greater than
41.31 the cost to the district of renting or leasing a building or land for approved purposes.
41.32 The proceeds of this levy must not be used for custodial or other maintenance services.

42.1 A district may not levy under this subdivision for the purpose of leasing or renting a
42.2 district-owned building or site to itself.

42.3 (c) For agreements finalized after July 1, 1997, a district may not levy under this
42.4 subdivision for the purpose of leasing: (1) a newly constructed building used primarily
42.5 for regular kindergarten, elementary, or secondary instruction; or (2) a newly constructed
42.6 building addition or additions used primarily for regular kindergarten, elementary, or
42.7 secondary instruction that contains more than 20 percent of the square footage of the
42.8 previously existing building.

42.9 (d) Notwithstanding paragraph (b), a district may levy under this subdivision for the
42.10 purpose of leasing or renting a district-owned building or site to itself only if the amount
42.11 is needed by the district to make payments required by a lease purchase agreement,
42.12 installment purchase agreement, or other deferred payments agreement authorized by law,
42.13 and the levy meets the requirements of paragraph (c). A levy authorized for a district by
42.14 the commissioner under this paragraph may be in the amount needed by the district to
42.15 make payments required by a lease purchase agreement, installment purchase agreement,
42.16 or other deferred payments agreement authorized by law, provided that any agreement
42.17 include a provision giving the school districts the right to terminate the agreement
42.18 annually without penalty.

42.19 (e) The total levy under this subdivision for a district for any year must not exceed
42.20 ~~\$150~~ \$162 times the ~~resident~~ adjusted pupil units for the fiscal year to which the levy
42.21 is attributable.

42.22 (f) For agreements for which a review and comment have been submitted to the
42.23 Department of Education after April 1, 1998, the term "instructional purpose" as used in
42.24 this subdivision excludes expenditures on stadiums.

42.25 (g) The commissioner of education may authorize a school district to exceed the
42.26 limit in paragraph (e) if the school district petitions the commissioner for approval. The
42.27 commissioner shall grant approval to a school district to exceed the limit in paragraph (e)
42.28 for not more than five years if the district meets the following criteria:

42.29 (1) the school district has been experiencing pupil enrollment growth in the
42.30 preceding five years;

42.31 (2) the purpose of the increased levy is in the long-term public interest;

42.32 (3) the purpose of the increased levy promotes colocation of government services; and

42.33 (4) the purpose of the increased levy is in the long-term interest of the district by
42.34 avoiding over construction of school facilities.

42.35 (h) A school district that is a member of an intermediate school district may include
42.36 in its authority under this section the costs associated with leases of administrative and

classroom space for intermediate school district programs. This authority must not exceed ~~\$43~~ \$46 times the adjusted ~~marginal-cost~~ pupil units of the member districts. This authority is in addition to any other authority authorized under this section.

(i) In addition to the allowable capital levies in paragraph (a), for taxes payable in 2012 to 2023, a district that is a member of the "Technology and Information Education Systems" data processing joint board, that finds it economically advantageous to enter into a lease agreement to finance improvements to a building and land for a group of school districts or special school districts for staff development purposes, may levy for its portion of lease costs attributed to the district within the total levy limit in paragraph (e). The total levy authority under this paragraph shall not exceed \$632,000.

(j) Notwithstanding paragraph (a), a district may levy under this subdivision for the purpose of leasing administrative space if the district can demonstrate to the satisfaction of the commissioner that the lease cost for the administrative space is no greater than the lease cost for instructional space that the district would otherwise lease. The commissioner must deny this levy authority unless the district passes a resolution stating its intent to lease instructional space under this section if the commissioner does not grant authority under this paragraph. The resolution must also certify that the lease cost for administrative space under this paragraph is no greater than the lease cost for the district's proposed instructional lease.

EFFECTIVE DATE. This section is effective for revenue for fiscal year 2015 and later.

Sec. 52. Minnesota Statutes 2012, section 126C.40, subdivision 6, is amended to read:

(b) The obligation created by the installment contract or the lease purchase agreement must not be included in the calculation of net debt for purposes of section 475.53, and does not constitute debt under other law. An election is not required in connection with the execution of the installment contract or the lease purchase agreement.

(c) The proceeds of the levy authorized by this subdivision must not be used to acquire a facility to be primarily used for athletic or school administration purposes.

(d) For the purposes of this subdivision, "district" means:

(2) ~~a school district that participates in a joint program for interdistrict desegregation with a district defined in clause (1)~~ other districts eligible for revenue under section 124D.862 if the facility acquired under this subdivision is to be primarily used for the a joint program for interdistrict desegregation and the commissioner determines that the joint programs are being undertaken to implement the districts' desegregation plan.

(e) Notwithstanding subdivision 1, the prohibition against a levy by a district to lease or rent a district-owned building to itself does not apply to levies otherwise authorized by this subdivision.

(f) For the purposes of this subdivision, any references in subdivision 1 to building or land shall include personal property.

Sec. 53. Minnesota Statutes 2012, section 126C.44, is amended to read:

The maximum amount which may be levied for all costs under this section shall be equal to ~~\$30~~ \$36 multiplied by the district's adjusted ~~marginal cost~~ pupil units for the school year. The proceeds of the levy must be reserved and used for directly funding the following purposes or for reimbursing the cities and counties who contract with the district for the following purposes:

(1) to pay the costs incurred for the salaries, benefits, and transportation costs of peace officers and sheriffs for liaison in services in the district's schools;

(8) to pay for costs associated with improving the school climate; or

(9) to pay costs for colocating and collaborating with mental health professionals who are not district employees or contractors.

(b) For expenditures under paragraph (a), clause (1), the district must initially attempt to contract for services to be provided by peace officers or sheriffs with the police department of each city or the sheriff's department of the county within the district containing the school receiving the services. If a local police department or a county sheriff's department does not wish to provide the necessary services, the district may contract for these services with any other police or sheriff's department located entirely or partially within the school district's boundaries.

~~(b)~~ (c) A school district that is a member of an intermediate school district may include in its authority under this section the costs associated with safe schools activities authorized under paragraph (a) for intermediate school district programs. Sec. 54. Minnesota Statutes 2012, section 127A.47, subdivision 7, is amended to read:

Subd. 7. **Alternative attendance programs.** (a) The general education aid and special education aid for districts must be adjusted for each pupil attending a nonresident district under sections 123A.05 to 123A.08, 124D.03, 124D.08, and 124D.68. The adjustments must be made according to this subdivision.

(a) General education aid paid to a resident district must be reduced by an amount equal to the referendum equalization aid attributable to the pupil in the resident district.

(b) General education aid paid to a district serving a pupil in programs listed in this subdivision must be increased by an amount equal to the greater of (1) the referendum equalization aid attributable to the pupil in the nonresident district; or (2) the product of the district's open enrollment concentration index, the maximum amount of referendum revenue in the first tier, and the district's net open enrollment pupil units for that year. A district's open enrollment concentration index equals the greater of: (i) zero, or (ii) the lesser of 1.0, or the difference between the district's ratio of open enrollment pupil units served to its resident pupil units for that year and 0.2. This clause does not apply to a school district where more than 50 percent of the open enrollment students are enrolled solely in online learning courses.

(c) If the amount of the reduction to be made from the general education aid of the resident district is greater than the amount of general education aid otherwise due the district, the excess reduction must be made from other state aids due the district.

(d) For fiscal year 2006, the district of residence must pay tuition to a district or an area learning center, operated according to paragraph (f), providing special instruction and services to a pupil with a disability, as defined in section 125A.02, or a pupil, as defined in section 125A.51, who is enrolled in a program listed in this subdivision. The tuition must be equal to (1) the actual cost of providing special instruction and services to the pupil, including a proportionate amount for special transportation and unreimbursed building lease and debt service costs for facilities used primarily for special education, minus (2) if the pupil receives special instruction and services outside the regular classroom for more than 60 percent of the school day, the amount of general education revenue and referendum aid attributable to that pupil for the portion of time the pupil receives special instruction and services outside of the regular classroom, excluding portions attributable to district and school administration, district support services, operations and maintenance, capital expenditures, and pupil transportation, minus (3) special education aid attributable to that pupil, that is received by the district providing special instruction and services. For purposes of this paragraph, general education revenue and referendum equalization aid attributable to a pupil must be calculated using the serving district's average general education revenue and referendum equalization aid per adjusted pupil unit.

(e) For fiscal year 2007 and later, special education aid paid to a resident district must be reduced by an amount equal to (b) For purposes of this subdivision, the "unreimbursed cost of providing special education and services" means the difference between: (1) the actual cost of providing special instruction and services, including special transportation

and unreimbursed building lease and debt service costs for facilities used primarily for special education, for a pupil with a disability, as defined in section 125A.02, or a pupil, as defined in section 125A.51, who is enrolled in a program listed in this subdivision, minus (2) if the pupil receives special instruction and services outside the regular classroom for more than 60 percent of the school day, the amount of general education revenue and referendum equalization aid attributable to that pupil for the portion of time the pupil receives special instruction and services outside of the regular classroom, excluding portions attributable to district and school administration, district support services, operations and maintenance, capital expenditures, and pupil transportation, minus (3) special education aid under section 125A.76 attributable to that pupil, that is received by the district providing special instruction and services. For purposes of this paragraph, general education revenue and referendum equalization aid attributable to a pupil must be calculated using the serving district's average general education revenue and referendum equalization aid per adjusted pupil unit.

(c) For fiscal year 2015 and later, special education aid paid to a resident district must be reduced by an amount equal to 90 percent of the unreimbursed cost of providing special education and services.

(d) Notwithstanding paragraph (c), special education aid paid to a resident district must be reduced by an amount equal to 100 percent of the unreimbursed cost of special education and services provided to students at an intermediate district, cooperative, or charter school where the percent of students eligible for special education services is at least 70 percent of the charter school's total enrollment.

(e) Special education aid paid to the district or cooperative providing special instruction and services for the pupil, or to the fiscal agent district for a cooperative, must be increased by the amount of the reduction in the aid paid to the resident district under paragraphs (c) and (d). If the resident district's special education aid is insufficient to make the full adjustment, the remaining adjustment shall be made to other state aids due to the district.

(f) An area learning center operated by a service cooperative, intermediate district, education district, or a joint powers cooperative may elect through the action of the constituent boards to charge the resident district tuition for pupils rather than to have the general education revenue paid to a fiscal agent school district. Except as provided in paragraph ~~(d)~~ or (e), the district of residence must pay tuition equal to at least 90 percent of the district average general education revenue per pupil unit minus an amount equal to the product of the formula allowance according to section 126C.10, subdivision 2,

times ~~.0485~~ .0466, calculated without compensatory revenue and transportation sparsity revenue, times the number of pupil units for pupils attending the area learning center.

EFFECTIVE DATE. This section is effective for revenue for fiscal year 2015 and later.

(b) General education aid paid to a district in which a charter school not providing transportation according to section 124D.10, subdivision 16, is located must be increased by an amount equal to the sum of:

(1) the product of: (i) the sum of an amount equal to the product of the formula allowance according to section 126C.10, subdivision 2, times ~~.0485~~ .0466, plus the transportation sparsity allowance for the district; times (ii) the adjusted ~~marginal-cost~~ pupil units attributable to the pupil; plus

(2) the product of \$223 and the extended time ~~marginal-cost~~ pupil units attributable to the pupil.

EFFECTIVE DATE. This section is effective for revenue for fiscal year 2015 and later.

The commissioner must provide that information to all districts.

If the disparity in adjusted general revenue as measured by the ratio of the 95th percentile to the fifth percentile increases in any year, the commissioner shall recommend to the legislature options for change in the general education formula that will limit the disparity in adjusted general revenue to no more than the disparity for the previous school year. The commissioner must submit the recommended options to the education committees of the legislature by January 15.

(d) School districts must adopt procedures consistent with section 124D.02, subdivision 1, for early admission to kindergarten or first grade of gifted and talented learners. The procedures must be sensitive to underrepresented groups.

Sec. 11. **[120B.21] MENTAL HEALTH EDUCATION.**

School districts and charter schools are encouraged to provide mental health instruction for students in grades 6 through 12 aligned with local health standards and integrated into existing programs, curriculum, or the general school environment of a district or charter school. The commissioner, in consultation with the commissioner of human services and mental health organizations, is encouraged to provide districts and charter schools with:

(1) age-appropriate model learning activities for grades 6 through 12 that encompass the mental health components of the National Health Education Standards and the benchmarks developed by the department's quality teaching network in health and best practices in mental health education; and

(2) a directory of resources for planning and implementing age-appropriate mental health curriculum and instruction in grades 6 through 12.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 12. Minnesota Statutes 2012, section 120B.30, subdivision 1, is amended to read:

Subdivision 1. **Statewide testing.** (a) The commissioner, with advice from experts with appropriate technical qualifications and experience and stakeholders, consistent with subdivision 1a, shall include in the comprehensive assessment system, for each grade level to be tested, state-constructed tests developed ~~from and~~ as computer-adaptive reading and mathematics assessments for students that are aligned with the state's required academic standards under section 120B.021, include multiple choice questions, and be are administered annually to all students in grades 3 through ~~8~~ 7. Reading and mathematics assessments for all students in grade 8 must be aligned with the state's required reading and mathematics standards, be administered annually, and include multiple choice questions.

State-developed high school tests aligned with the state's required academic standards under section 120B.021 and administered to all high school students in a subject other than writing must include multiple choice questions. The commissioner shall establish one or more months during which schools shall administer the tests to students each school year. ~~For students enrolled in grade 8 before the 2005-2006 school year, Minnesota basic skills tests in reading, mathematics, and writing shall fulfill students' basic skills testing requirements for a passing state notation. The passing scores of basic skills tests in reading and mathematics are the equivalent of 75 percent correct for students entering grade 9 based on the first uniform test administered in February 1998. Students who have not successfully passed a Minnesota basic skills test by the end of the 2011-2012 school year must pass the graduation-required assessments for diploma under paragraph (c), except that for the 2012-2013 and 2013-2014 school years only, these students may satisfy the state's graduation test requirement for math by complying with paragraph (d), clauses (1) and (3).~~

(1) Students enrolled in grade 8 through the 2009-2010 school year are eligible to be assessed under (i) the graduation-required assessment for diploma in reading, mathematics, or writing under Minnesota Statutes 2012, section 120B.30, subdivision 1, paragraphs (c), clauses (1) and (2), and (d), (ii) the WorkKeys job skills assessment, (iii) the Compass college placement test, (iv) the ACT assessment for college admission, or (v) a nationally recognized armed services vocational aptitude test.

(2) Students enrolled in grade 8 in the 2010-2011 or 2011-2012 school year are eligible to be assessed under (i) the graduation-required assessment for diploma in reading, mathematics, or writing under Minnesota Statutes 2012, section 120B.30, subdivision 1, paragraph (c), clauses (1) and (2), (ii) the WorkKeys job skills assessment, (iii) the Compass college placement test, (iv) the ACT assessment for college admission, or (v) a nationally recognized armed services vocational aptitude test.

67.1 (3) For students under clause (1) or (2), a school district may substitute a score from
67.2 an alternative, equivalent assessment to satisfy the requirements of this paragraph.

67.3 (b) The state assessment system must be aligned to the most recent revision of
67.4 academic standards as described in section 120B.023 in the following manner:

67.5 (1) mathematics;

67.6 (i) grades 3 through 8 beginning in the 2010-2011 school year; and

67.7 (ii) high school level beginning in the 2013-2014 school year;

67.8 (2) science; grades 5 and 8 and at the high school level beginning in the 2011-2012
67.9 school year; and

67.10 (3) language arts and reading; grades 3 through 8 and high school level beginning in
67.11 the 2012-2013 school year.

67.12 (c) For students enrolled in grade 8 in the ~~2005-2006~~ 2012-2013 school year and
67.13 later, ~~only the following options shall fulfill students' state graduation test requirements,~~
67.14 based on a longitudinal, systematic approach to student education and career planning,
67.15 assessment, instructional support, and evaluation, include the following:

67.16 ~~(1) for reading and mathematics:~~

68.9 ~~(iv) achieving an individual passing score on the state-identified alternate assessment~~
68.10 ~~or assessments as determined by appropriate state guidelines for students with an~~
68.11 ~~individualized education program.~~
68.12 (1) demonstrate understanding of required academic standards on a nationally
68.13 normed college entrance exam;
68.14 (2) achievement and career and college readiness tests in mathematics, reading, and
68.15 writing, consistent with paragraph (e) and to the extent available, to monitor students'
68.16 continuous development of and growth in requisite knowledge and skills; analyze
68.17 students' progress and performance levels, identifying students' academic strengths and
68.18 diagnosing areas where students require curriculum or instructional adjustments, targeted
68.19 interventions, or remediation; and, based on analysis of students' progress and performance
68.20 data, determine students' learning and instructional needs and the instructional tools and
68.21 best practices that support academic rigor for the student; and
68.22 (3) consistent with this paragraph and section 120B.125, age-appropriate exploration
68.23 and planning activities and career assessments to encourage students to identify personally
68.24 relevant career interests and aptitudes and help students and their families develop a
68.25 regularly reexamined transition plan for postsecondary education or employment without
68.26 need for postsecondary remediation.
68.27 Based on appropriate state guidelines, students with an individualized education program
68.28 may satisfy state graduation requirements by achieving an individual score on the
68.29 state-identified alternative assessments.
68.30 Expectations of schools, districts, and the state for career or college readiness under
68.31 this subdivision must be comparable in rigor, clarity of purpose, and rates of student
68.32 completion. A student under clause (2) must receive targeted, relevant, academically
68.33 rigorous, and resourced instruction, which may include a targeted instruction and
68.34 intervention plan focused on improving the student's knowledge and skills in core subjects
68.35 so that the student has a reasonable chance to succeed in a career or college without need
68.36 for postsecondary remediation. Consistent with sections 120B.13, 124D.09, 124D.091,

124D.49, and related sections, an enrolling school or district must actively encourage a student in grade 11 or 12 who is identified as academically ready for a career or college to participate in courses and programs awarding college credit to high school students. Students are not required to achieve a specified score or level of proficiency on an assessment under this subdivision to graduate from high school.

~~(d) Students enrolled in grade 8 in any school year from the 2005-2006 school year to the 2009-2010 school year who do not pass the mathematics graduation-required assessment for diploma under paragraph (c) are eligible to receive a high school diploma if they:~~

~~(1) complete with a passing score or grade all state and local coursework and credits required for graduation by the school board granting the students their diploma;~~

~~(2) participate in district-prescribed academic remediation in mathematics; and~~

~~(3) fully participate in at least two retests of the mathematics GRAD test or until they pass the mathematics GRAD test, whichever comes first.~~ To improve the secondary and postsecondary outcomes of all students, the alignment between secondary and postsecondary education programs and Minnesota's workforce needs, and the efficiency and cost-effectiveness of secondary and postsecondary programs, the commissioner, after consulting with the chancellor of the Minnesota State Colleges and Universities and using a request for proposal process, shall contract for a series of assessments that are consistent with this subdivision, aligned with state academic standards, and include career and college readiness benchmarks. Mathematics, reading, and writing assessments for students in grades 8 and 10 must be predictive of a nationally normed assessment for career and college readiness. This nationally recognized assessment must be a college entrance exam and given to students in grade 11. This series of assessments must include a college placement diagnostic exam and contain career exploration elements. The commissioner and the chancellor of the Minnesota State Colleges and Universities must collaborate in aligning instruction and assessments for adult basic education students to provide the students with diagnostic information about any targeted interventions they need so that they may seek postsecondary education or employment without need for postsecondary remediation.

(1) Districts and schools, on an annual basis, must use the career exploration elements in these assessments to help students, beginning no later than grade 9, and their families explore and plan for postsecondary education or careers based on the students' interests, aptitudes, and aspirations. Districts and schools must use timely regional labor market information and partnerships, among other resources, to help students and their families successfully develop, pursue, review, and revise an individualized plan for postsecondary education or a career. This process must help increase students' engagement

in and connection to school, improve students' knowledge and skills, and deepen students' understanding of career pathways as a sequence of academic and career courses that lead to an industry-recognized credential, an associate's degree, or a bachelor's degree and are available to all students, whatever their interests and career goals.

(2) Students in grade 10 or 11 not yet academically ready for a career or college based on their growth in academic achievement between grades 8 and 10 must take the college placement diagnostic exam before taking the college entrance exam under clause (3). Students, their families, the school, and the district can then use the results of the college placement diagnostic exam for targeted instruction, intervention, or remediation and improve students' knowledge and skills in core subjects sufficient for a student to graduate and have a reasonable chance to succeed in a career or college without remediation.

(3) All students except those eligible for alternative assessments must be given the college entrance part of these assessments in grade 11. A student under this clause who demonstrates attainment of required state academic standards, which include career and college readiness benchmarks, on these assessments is academically ready for a career or college and is encouraged to participate in courses awarding college credit to high school students. Such courses and programs may include sequential courses of study within broad career areas and technical skill assessments that extend beyond course grades.

(4) As appropriate, students through grade 12 must continue to participate in targeted instruction, intervention, or remediation and be encouraged to participate in courses awarding college credit to high school students.

(5) A study to determine the alignment between these assessments and state academic standards under this chapter must be conducted. Where alignment exists, the commissioner must seek federal approval to, and immediately upon receiving approval, replace the federally required assessments referenced under subdivision 1a and section 120B.35, subdivision 2, with assessments under this paragraph.

(e) In developing, supporting, and improving students' academic readiness for a career or college, schools, districts, and the state must have a continuum of empirically derived, clearly defined benchmarks focused on students' attainment of knowledge and skills so that students, their parents, and teachers know how well students must perform to have a reasonable chance to succeed in a career or college without need for postsecondary remediation. The commissioner, in consultation with local school officials and educators, and Minnesota's public postsecondary institutions must ensure that the foundational knowledge and skills for students' successful performance in postsecondary employment or education and an articulated series of possible targeted interventions are clearly identified and satisfy Minnesota's postsecondary admissions requirements.

71.1 (f) For students in grade 8 in the 2012-2013 school year and later, a school, district,
71.2 or charter school must place record on the high school transcript a student's current pass
71.3 status for each subject that has a required graduation assessment progress toward career
71.4 and college readiness, and for other students as soon as practicable.

71.5 ~~In addition,~~ (g) The school board granting the students their diplomas may formally
71.6 decide to include a notation of high achievement on the high school diplomas of those
71.7 graduating seniors who, according to established school board criteria, demonstrate
71.8 exemplary academic achievement during high school.

71.9 ~~(e)~~ (h) The 3rd through 8th ~~7th~~ grade computer-adaptive assessment results and grade
71.10 8 and high school test results shall be available to districts for diagnostic purposes affecting
71.11 student learning and district instruction and curriculum, and for establishing educational
71.12 accountability. The commissioner must establish empirically derived benchmarks on
71.13 adaptive assessments in grades 3 through 7 that reveal a trajectory toward career and
71.14 college readiness. The commissioner must disseminate to the public the computer-adaptive
71.15 assessments, grade 8, and high school test results upon receiving those results.

71.16 ~~(f)~~ (i) The ~~3rd through 8th grade~~ grades 3 through 7 computer-adaptive assessments
71.17 and grade 8 and high school tests must be aligned with state academic standards. The
71.18 commissioner shall determine the testing process and the order of administration.
71.19 The statewide results shall be aggregated at the site and district level, consistent with
71.20 subdivision 1a.

71.21 ~~(g) In addition to the testing and reporting requirements under this section,~~ (j) The
71.22 commissioner shall include the following components in the statewide public reporting
71.23 system:

71.24 (1) uniform statewide testing computer-adaptive assessments of all students in
71.25 grades 3 through 8 ~~7~~ and testing at the grade 8 and high school level levels that provides
71.26 appropriate, technically sound accommodations or alternate assessments;

71.27 (2) educational indicators that can be aggregated and compared across school
71.28 districts and across time on a statewide basis, including average daily attendance, high
71.29 school graduation rates, and high school drop-out rates by age and grade level;

71.30 (3) state results on the American College Test; and

71.31 (4) state results from participation in the National Assessment of Educational
71.32 Progress so that the state can benchmark its performance against the nation and other
71.33 states, and, where possible, against other countries, and contribute to the national effort
71.34 to monitor achievement.

71.35 **EFFECTIVE DATE.** This section is effective the day following final enactment
71.36 and applies to the 2013-2014 school year and later, except that paragraph (a) applies

72.1 the day following final enactment and the requirements for using computer-adaptive
72.2 mathematics and reading assessments for grades 3 through 7 apply in the 2015-2016
72.3 school year and later. The series of assessments contracted for under paragraph (d) apply
72.4 in the 2014-2015 school year and later.

72.5 Sec. 13. Minnesota Statutes 2012, section 120B.30, subdivision 1a, is amended to read:

72.6 Subd. 1a. **Statewide and local assessments; results.** (a) For purposes of this
72.7 section, the following definitions have the meanings given them.

72.8 (1) "Computer-adaptive assessments" means fully adaptive assessments.

72.9 (2) "Fully adaptive assessments" include test items that are on-grade level and items
72.10 that may be above or below a student's grade level.

72.11 (3) "On-grade level" test items contain subject area content that is aligned to state
72.12 academic standards for the grade level of the student taking the assessment.

72.13 (4) "Above-grade level" test items contain subject area content that is above the
72.14 grade level of the student taking the assessment and is considered aligned with state
72.15 academic standards to the extent it is aligned with content represented in state academic
72.16 standards above the grade level of the student taking the assessment. Notwithstanding
72.17 the student's grade level, administering above-grade level test items to a student does not
72.18 violate the requirement that state assessments must be aligned with state standards.

72.19 (5) "Below-grade level" test items contain subject area content that is below the
72.20 grade level of the student taking the test and is considered aligned with state academic
72.21 standards to the extent it is aligned with content represented in state academic standards
72.22 below the student's current grade level. Notwithstanding the student's grade level,
72.23 administering below-grade level test items to a student does not violate the requirement
72.24 that state assessments must be aligned with state standards.

72.25 (b) The commissioner must use fully adaptive mathematics and reading assessments
72.26 for grades 3 through 7 beginning in the 2015-2016 school year and later.

72.27 (c) For purposes of conforming with existing federal educational accountability
72.28 requirements, the commissioner must develop and implement computer-adaptive reading
72.29 and mathematics assessments for grades 3 through 8 7, state-developed grade 8 and
72.30 high school reading and mathematics tests aligned with state academic standards, and
72.31 science assessments under clause (2) that districts and sites must use to monitor student
72.32 growth toward achieving those standards. The commissioner must not develop statewide
72.33 assessments for academic standards in social studies, health and physical education, and
72.34 the arts. The commissioner must require:

73.1 (1) annual computer-adaptive reading and mathematics assessments in grades 3
73.2 through 8 7, and grade 8 and high school reading and mathematics tests; and

73.3 (2) annual science assessments in one grade in the grades 3 through 5 span, the
73.4 grades 6 through 8 span, and a life sciences assessment in the grades 9 through 12 span,
73.5 and the commissioner must not require students to achieve a passing score on high school
73.6 science assessments as a condition of receiving a high school diploma.

73.7 (d) The commissioner must ensure that for annual computer-adaptive assessments:

73.8 (1) individual student performance data and achievement reports are available
73.9 within three school days of when students take an assessment except in a year when an
73.10 assessment reflects new performance standards;

73.11 (2) growth information is available for each student from the student's first
73.12 assessment to each proximate assessment using a constant measurement scale;

73.13 (3) parents, teachers, and school administrators are able to use elementary and
73.14 middle school student performance data to project students' secondary and postsecondary
73.15 achievement; and

73.16 (4) useful diagnostic information about areas of students' academic strengths and
73.17 weaknesses is available to teachers and school administrators for improving student
73.18 instruction and indicating the specific skills and concepts that should be introduced and
73.19 developed for students at given performance levels, organized by strands within subject
73.20 areas, and aligned to state academic standards.

73.21 ~~(b)~~ (e) The commissioner must ensure that all ~~statewide~~ state tests administered to
73.22 elementary and secondary students measure students' academic knowledge and skills and
73.23 not students' values, attitudes, and beliefs.

73.24 ~~(e)~~ (f) Reporting of state assessment results must:

73.25 (1) provide timely, useful, and understandable information on the performance of
73.26 individual students, schools, school districts, and the state;

73.27 (2) include a ~~value-added~~ growth indicator of student achievement ~~under section~~
73.28 ~~120B.35, subdivision 3, paragraph (b); and~~

73.29 ~~(3)(i) for students enrolled in grade 8 before the 2005-2006 school year, determine~~
73.30 ~~whether students have met the state's basic skills requirements; and~~

73.31 ~~(ii) for students enrolled in grade 8 in the 2005-2006 school year and later, determine~~
73.32 ~~whether students have met the state's academic standards.~~

73.33 ~~(d)~~ (g) Consistent with applicable federal law ~~and subdivision 1, paragraph (d),~~
73.34 ~~clause (1),~~ the commissioner must include appropriate, technically sound accommodations
73.35 or alternative assessments for the very few students with disabilities for whom statewide
73.36 assessments are inappropriate and for English learners.

~~(e)~~ (h) A school, school district, and charter school must administer statewide assessments under this section, as the assessments become available, to evaluate student proficiency progress toward career and college readiness in the context of the state's grade level academic standards. ~~If a state assessment is not available, a school, school district, and charter school must determine locally if a student has met the required academic standards.~~ A school, school district, or charter school may use a student's performance on a statewide assessment as one of multiple criteria to determine grade promotion or retention. A school, school district, or charter school may use a high school student's performance on a statewide assessment as a percentage of the student's final grade in a course, or place a student's assessment score on the student's transcript.

EFFECTIVE DATE. This section is effective for the 2013-2014 school year and later except the requirements for using computer-adaptive mathematics and reading assessments for grades 3 through 7 apply in the 2015-2016 school year and later. Results related to career and college readiness benchmarks apply in the 2014-2015 school year and later.

Sec. 14. Minnesota Statutes 2012, section 120B.31, subdivision 1, is amended to read:

Subdivision 1. **Educational accountability and public reporting.** Consistent with the direction to adopt statewide academic standards under section 120B.02, the department, in consultation with education and other system stakeholders, must establish a coordinated and comprehensive system of educational accountability and public reporting that promotes greater academic achievement, preparation for higher academic education, preparation for the world of work, citizenship ~~under sections 120B.021, subdivision 1, clause (4), and 120B.024, paragraph (a), clause (4), and the arts.~~

Sec. 15. Minnesota Statutes 2012, section 120B.35, subdivision 3, is amended to read:

Subd. 3. **State growth target; other state measures.** (a) The state's educational assessment system measuring individual students' educational growth is based on indicators of achievement growth that show an individual student's prior achievement. Indicators of achievement and prior achievement must be based on highly reliable statewide or districtwide assessments.

(b) The commissioner, in consultation with a stakeholder group that includes assessment and evaluation directors and staff and researchers must implement a model that uses a value-added growth indicator and includes criteria for identifying schools and school districts that demonstrate medium and high growth under section 120B.299, subdivisions 8 and 9, and may recommend other value-added measures under section

120B.299, subdivision 3. The model may be used to advance educators' professional development and replicate programs that succeed in meeting students' diverse learning needs. Data on individual teachers generated under the model are personnel data under section 13.43. The model must allow users to:

(1) report student growth consistent with this paragraph; and

(2) for all student categories, report and compare aggregated and disaggregated state growth data using the nine student categories identified under the federal 2001 No Child Left Behind Act and two student gender categories of male and female, respectively, following appropriate reporting practices to protect nonpublic student data.

The commissioner must report ~~separate~~ measures of student growth and ~~proficiency~~, consistent with this paragraph.

(c) When reporting student performance under section 120B.36, subdivision 1, the commissioner annually, beginning July 1, 2011, must report two core measures indicating the extent to which current high school graduates are being prepared for postsecondary academic and career opportunities:

(1) a preparation measure indicating the number and percentage of high school graduates in the most recent school year who completed course work important to preparing them for postsecondary academic and career opportunities, consistent with the core academic subjects required for admission to Minnesota's public colleges and universities as determined by the Office of Higher Education under chapter 136A; and

(2) a rigorous coursework measure indicating the number and percentage of high school graduates in the most recent school year who successfully completed one or more college-level advanced placement, international baccalaureate, postsecondary enrollment options including concurrent enrollment, other rigorous courses of study under section 120B.021, subdivision 1a, or industry certification courses or programs.

When reporting the core measures under clauses (1) and (2), the commissioner must also analyze and report separate categories of information using the nine student categories identified under the federal 2001 No Child Left Behind Act and two student gender categories of male and female, respectively, following appropriate reporting practices to protect nonpublic student data.

(d) When reporting student performance under section 120B.36, subdivision 1, the commissioner annually, beginning July 1, 2014, must report summary data on school safety and students' engagement and connection at school. The summary data under this paragraph are separate from and must not be used for any purpose related to measuring or evaluating the performance of classroom teachers. The commissioner, in consultation with qualified experts on student engagement and connection and classroom teachers,

must identify highly reliable variables that generate summary data under this paragraph. The summary data may be used at school, district, and state levels only. Any data on individuals received, collected, or created that are used to generate the summary data under this paragraph are nonpublic data under section 13.02, subdivision 9.

(e) For purposes of statewide educational accountability, the commissioner must identify and report measures that demonstrate the success of learning year program providers under sections 123A.05 and 124D.68, among other such providers, in improving students' graduation outcomes. The commissioner, beginning July 1, 2015, must annually report summary data on:

(1) the four- and six-year graduation rates of students under this paragraph;

(2) the percent of students under this paragraph whose progress and performance levels are meeting career and college readiness benchmarks under section 120B.30, subdivision 1; and

(3) the success that learning year program providers experience in:

(i) identifying at-risk and off-track student populations by grade;

(ii) providing successful prevention and intervention strategies for at-risk students;

(iii) providing successful recuperative and recovery or reenrollment strategies for off-track students; and

(iv) improving the graduation outcomes of at-risk and off-track students.

The commissioner may include in the annual report summary data on other education providers serving a majority of students eligible to participate in a learning year program.

EFFECTIVE DATE. Paragraph (e) applies to data that are collected in the 2014-2015 school year and later and reported annually beginning July 1, 2015.

Sec. 16. Minnesota Statutes 2012, section 120B.36, subdivision 1, is amended to read:

Subdivision 1. **School performance ~~report cards~~ reports.** (a) The commissioner shall report student academic performance under section 120B.35, subdivision 2; the percentages of students showing low, medium, and high growth under section 120B.35, subdivision 3, paragraph (b); school safety and student engagement and connection under section 120B.35, subdivision 3, paragraph (d); rigorous coursework under section 120B.35, subdivision 3, paragraph (c); the percentage of students under section 120B.35, subdivision 3, paragraph (b), clause (2), whose progress and performance levels are meeting career and college readiness benchmarks under sections 120B.30, subdivision 1, and 120B.35, subdivision 3, paragraph (e); longitudinal data on the progress of eligible districts in reducing disparities in students' academic achievement and racial and economic integration under section 124D.861; two separate student-to-teacher ratios that

clearly indicate the definition of teacher consistent with sections 122A.06 and 122A.15 for purposes of determining these ratios; staff characteristics excluding salaries; student enrollment demographics; district mobility; and extracurricular activities. The report also must indicate a school's adequate yearly progress status under applicable federal law, and must not set any designations applicable to high- and low-performing schools due solely to adequate yearly progress status.

However, a child may be absent from school on such days as the child attends upon instruction according to the ordinances of some church.

(b) Notwithstanding subdivision 6, paragraph (a), a parent may withdraw a child from an all-day, every-day kindergarten program and put their child in a half-day program, if offered, or an alternate-day program without being truant. A school board must excuse a kindergarten child from a part of a school day at the request of the child's parent.

88.18 (b) The board must adopt rules requiring a person to pass a skills examination in
88.19 reading, writing, and mathematics as a requirement for initial teacher licensure, except
88.20 that the board may issue up to two additional temporary, one-year teaching licenses to an
88.21 otherwise qualified candidate who has not yet passed the skills exam. Such rules must
88.22 require college and universities offering a board-approved teacher preparation program to
88.23 provide remedial assistance to persons who did not achieve a qualifying score on the skills
88.24 examination, including those for whom English is a second language.

88.25 (c) The board must adopt rules to approve teacher preparation programs. The board,
88.26 upon the request of a postsecondary student preparing for teacher licensure or a licensed
88.27 graduate of a teacher preparation program, shall assist in resolving a dispute between the
88.28 person and a postsecondary institution providing a teacher preparation program when the
88.29 dispute involves an institution's recommendation for licensure affecting the person or the
88.30 person's credentials. At the board's discretion, assistance may include the application
88.31 of chapter 14.

88.32 (d) The board must provide the leadership and adopt rules for the redesign of teacher
88.33 education programs to implement a research based, results-oriented curriculum that
88.34 focuses on the skills teachers need in order to be effective. The board shall implement new

89.5 performance-based assessment that measures teacher candidates in three areas: planning
89.6 for instruction and assessment; engaging students and supporting learning; and assessing
89.7 student learning.

89.8 (e) The board must adopt rules requiring candidates for initial licenses to pass an
89.9 examination of general pedagogical knowledge and examinations of licensure-specific
89.10 teaching skills. The rules shall be effective by September 1, 2001. The rules under this
89.11 paragraph also must require candidates for initial licenses to teach prekindergarten or
89.12 elementary students to pass, as part of the examination of licensure-specific teaching
89.13 skills, test items assessing the candidates' knowledge, skill, and ability in comprehensive,

89.17 integrate that knowledge and understanding.

89.18 (f) The board must adopt rules requiring teacher educators to work directly with
89.19 elementary or secondary school teachers in elementary or secondary schools to obtain
89.20 periodic exposure to the elementary or secondary teaching environment.

89.21 (g) The board must grant licenses to interns and to candidates for initial licenses
89.22 based on appropriate professional competencies that are aligned with the board's licensing
89.23 system and students' diverse learning needs. The board must include these licenses in a
89.24 statewide differentiated licensing system that creates new leadership roles for successful
89.25 experienced teachers premised on a collaborative professional culture dedicated to meeting
89.26 students' diverse learning needs in the 21st century and formalizes mentoring and induction
89.27 for newly licensed teachers that is provided through a teacher support framework.

89.28 (h) The board must design and implement an assessment system which requires a
89.29 candidate for an initial license and first continuing license to demonstrate the abilities
89.30 necessary to perform selected, representative teaching tasks at appropriate levels.

89.31 (i) The board must receive recommendations from local committees as established
89.32 by the board for the renewal of teaching licenses.

89.33 (j) The board must grant life licenses to those who qualify according to requirements
89.34 established by the board, and suspend or revoke licenses pursuant to sections 122A.20 and
89.35 214.10. The board must not establish any expiration date for application for life licenses.

(k) The board must adopt rules that require all licensed teachers who are renewing their continuing license to include in their renewal requirements further preparation in the areas of using positive behavior interventions and in accommodating, modifying, and adapting curricula, materials, and strategies to appropriately meet the needs of individual students and ensure adequate progress toward the state's graduation rule.

(l) In adopting rules to license public school teachers who provide health-related services for disabled children, the board shall adopt rules consistent with license or registration requirements of the commissioner of health and the health-related boards who license personnel who perform similar services outside of the school.

(m) The board must adopt rules that require all licensed teachers who are renewing their continuing license to include in their renewal requirements further reading preparation, consistent with section 122A.06, subdivision 4. The rules do not take effect until they are approved by law. Teachers who do not provide direct instruction including, at least, counselors, school psychologists, school nurses, school social workers, audiovisual directors and coordinators, and recreation personnel are exempt from this section.

(n) The board must adopt rules that require all licensed teachers who are renewing their continuing license to include in their renewal requirements further preparation, first, in understanding the key warning signs of early-onset mental illness in children and adolescents and then, during subsequent licensure renewal periods, preparation may include providing a more in-depth understanding of students' mental illness trauma, accommodations for students' mental illness, parents' role in addressing students' mental illness, Fetal Alcohol Spectrum Disorders, autism, the requirements of section 125A.0942 governing restrictive procedures, and de-escalation methods, among other similar topics.

91.27 for teacher licensure. This common core shall meet the standards developed by the
91.28 interstate new teacher assessment and support consortium in its 1992 "model standards for
91.29 beginning teacher licensing and development." Amendments to standards adopted under
91.30 this paragraph are covered by chapter 14. The board of teaching shall report annually to

120.29 (4) a nonprofit corporation subject to chapter 317A, described in section 317A.905,
120.30 and exempt from federal income tax under section 501(c)(6) of the Internal Revenue Code
120.31 of 1986, may authorize one or more charter schools if the charter school has operated
120.32 for at least three years under a different authorizer and if the nonprofit corporation has
120.33 existed for at least 25 years; or

120.34 (5) single-purpose authorizers that are charitable, nonsectarian organizations formed
120.35 under section 501(c)(3) of the Internal Revenue Code of 1986 and incorporated in the
120.36 state of Minnesota under chapter 317A as a corporation with no members whose sole

121.1 purpose is to charter schools. Eligible organizations interested in being approved as an
121.2 authorizer under this paragraph must submit a proposal to the commissioner that includes
121.3 the provisions of paragraph (c) and a five-year financial plan. Such authorizers shall
121.4 consider and approve charter school applications using the criteria provided in subdivision
121.5 4 and shall not limit the applications it solicits, considers, or approves to any single
121.6 curriculum, learning program, or method.

121.7 (c) An eligible authorizer under this subdivision must apply to the commissioner for
121.8 approval as an authorizer before submitting any affidavit to the commissioner to charter
121.9 a school. The application for approval as a charter school authorizer must demonstrate
121.10 the applicant's ability to implement the procedures and satisfy the criteria for chartering a
121.11 school under this section. The commissioner must approve or disapprove an application
121.12 within 45 business days of the application deadline. If the commissioner disapproves
121.13 the application, the commissioner must notify the applicant of the specific deficiencies
121.14 in writing and the applicant then has 20 business days to address the deficiencies to the
121.15 commissioner's satisfaction. After the 20 business days expire, the commissioner has 15
121.16 business days to make a final decision to approve or disapprove the application. Failing to
121.17 address the deficiencies to the commissioner's satisfaction makes an applicant ineligible to
121.18 be an authorizer. The commissioner, in establishing criteria for approval, must consider
121.19 the applicant's:

- 121.20 (1) capacity and infrastructure;
- 121.21 (2) application criteria and process;
- 121.22 (3) contracting process;
- 121.23 (4) ongoing oversight and evaluation processes; and
- 121.24 (5) renewal criteria and processes.

121.25 (d) An applicant must include in its application to the commissioner to be an
121.26 approved authorizer at least the following:

- 121.27 (1) how chartering schools is a way for the organization to carry out its mission;
- 121.28 (2) a description of the capacity of the organization to serve as an authorizer,
121.29 including the personnel who will perform the authorizing duties, their qualifications, the
121.30 amount of time they will be assigned to this responsibility, and the financial resources
121.31 allocated by the organization to this responsibility;
- 121.32 (3) a description of the application and review process the authorizer will use to
121.33 make decisions regarding the granting of charters;
- 121.34 (4) a description of the type of contract it will arrange with the schools it charters
121.35 that meets the provisions of subdivision 6;

(5) the process to be used for providing ongoing oversight of the school consistent with the contract expectations specified in clause (4) that assures that the schools chartered are complying with both the provisions of applicable law and rules, and with the contract;

(6) a description of the criteria and process the authorizer will use to grant expanded applications under subdivision 4, paragraph (j);

(7) the process for making decisions regarding the renewal or termination of the school's charter based on evidence that demonstrates the academic, organizational, and financial competency of the school, including its success in increasing student achievement and meeting the goals of the charter school agreement; and

(8) an assurance specifying that the organization is committed to serving as an authorizer for the full five-year term.

(e) A disapproved applicant under this section may resubmit an application during a future application period.

(f) If the governing board of an approved authorizer votes to withdraw as an approved authorizer for a reason unrelated to any cause under subdivision 23, the authorizer must notify all its chartered schools and the commissioner in writing by July 15 of its intent to withdraw as an authorizer on June 30 in the next calendar year. The commissioner may approve the transfer of a charter school to a new authorizer under this paragraph after the new authorizer submits an affidavit to the commissioner.

(g) The authorizer must participate in department-approved training.

~~(h) An authorizer that chartered a school before August 1, 2009, must apply by June 30, 2012, to the commissioner for approval, under paragraph (e), to continue as an authorizer under this section. For purposes of this paragraph, an authorizer that fails to submit a timely application is ineligible to charter a school.~~

~~(i)~~ (h) The commissioner shall review an authorizer's performance every five years in a manner and form determined by the commissioner and may review an authorizer's performance more frequently at the commissioner's own initiative or at the request of a charter school operator, charter school board member, or other interested party. The commissioner, after completing the review, shall transmit a report with findings to the authorizer. If, consistent with this section, the commissioner finds that an authorizer has not fulfilled the requirements of this section, the commissioner may subject the authorizer to corrective action, which may include terminating the contract with the charter school board of directors of a school it chartered. The commissioner must notify the authorizer in writing of any findings that may subject the authorizer to corrective action and the authorizer then has 15 business days to request an informal hearing before the commissioner takes corrective action. If the commissioner terminates a contract between

123.1 an authorizer and a charter school under this paragraph, the commissioner may assist the
123.2 charter school in acquiring a new authorizer.

123.3 ~~(j)~~ (i) The commissioner may at any time take corrective action against an authorizer,
123.4 including terminating an authorizer's ability to charter a school for:

123.5 (1) failing to demonstrate the criteria under paragraph (c) under which the
123.6 commissioner approved the authorizer;

123.7 (2) violating a term of the chartering contract between the authorizer and the charter
123.8 school board of directors;

123.9 (3) unsatisfactory performance as an approved authorizer; or

123.10 (4) any good cause shown that provides the commissioner a legally sufficient reason
123.11 to take corrective action against an authorizer.

123.12 Subd. 4. **Formation of school.** (a) An authorizer, after receiving an application from
123.13 a school developer, may charter a licensed teacher under section 122A.18, subdivision
123.14 1, or a group of individuals that includes one or more licensed teachers under section
123.15 122A.18, subdivision 1, to operate a school subject to the commissioner's approval of the
123.16 authorizer's affidavit under paragraph (b). The school must be organized and operated as a
123.17 nonprofit corporation under chapter 317A and the provisions under the applicable chapter
123.18 shall apply to the school except as provided in this section.

123.19 Notwithstanding sections 465.717 and 465.719, a school district, subject to this
123.20 section and section 124D.11, may create a corporation for the purpose of establishing a
123.21 charter school.

123.22 (b) Before the operators may establish and operate a school, the authorizer must file
123.23 an affidavit with the commissioner stating its intent to charter a school. An authorizer
123.24 must file a separate affidavit for each school it intends to charter. The affidavit must state
123.25 the terms and conditions under which the authorizer would charter a school and how the
123.26 authorizer intends to oversee the fiscal and student performance of the charter school and to
123.27 comply with the terms of the written contract between the authorizer and the charter school
123.28 board of directors under subdivision 6. The commissioner must approve or disapprove the
123.29 authorizer's affidavit within 60 business days of receipt of the affidavit. If the commissioner
123.30 disapproves the affidavit, the commissioner shall notify the authorizer of the deficiencies
123.31 in the affidavit and the authorizer then has 20 business days to address the deficiencies.
123.32 If the authorizer does not address deficiencies to the commissioner's satisfaction, the
123.33 commissioner's disapproval is final. Failure to obtain commissioner approval precludes an
123.34 authorizer from chartering the school that is the subject of this affidavit.

123.35 (c) The authorizer may prevent an approved charter school from opening for
123.36 operation if, among other grounds, the charter school violates this section or does not meet

124.1 the ready-to-open standards that are part of the authorizer's oversight and evaluation
124.2 process or are stipulated in the charter school contract.

124.3 (d) The operators authorized to organize and operate a school, before entering into
124.4 a contract or other agreement for professional or other services, goods, or facilities,
124.5 must incorporate as a nonprofit corporation under chapter 317A and must establish a
124.6 board of directors composed of at least five members who are not related parties until a
124.7 timely election for members of the ongoing charter school board of directors is held
124.8 according to the school's articles and bylaws under paragraph (f). A charter school board
124.9 of directors must be composed of at least five members who are not related parties.
124.10 Staff members employed at the school, including teachers providing instruction under a
124.11 contract with a cooperative, members of the board of directors, and all parents or legal
124.12 guardians of children enrolled in the school are the voters eligible to elect the members
124.13 of the school's board of directors. A charter school must notify eligible voters of the
124.14 school board election dates at least 30 days before the election. Board of director meetings
124.15 must comply with chapter 13D.

124.16 (e) A charter school shall publish and maintain on the school's official Web site: (1)
124.17 the minutes of meetings of the board of directors, and of members and committees having
124.18 any board-delegated authority, for at least one calendar year from the date of publication;
124.19 (2) directory information for members of the board of directors and committees having
124.20 board-delegated authority; and (3) identifying and contact information for the school's
124.21 authorizer. Identifying and contact information for the school's authorizer must be
124.22 included in other school materials made available to the public. Upon request of an
124.23 individual, the charter school must also make available in a timely fashion financial
124.24 statements showing all operations and transactions affecting income, surplus, and deficit
124.25 during the school's last annual accounting period; and a balance sheet summarizing assets
124.26 and liabilities on the closing date of the accounting period. A charter school also must ~~post~~
124.27 ~~on its official Web site information identifying its authorizer and indicate how to contact~~
124.28 ~~that authorizer and~~ include that same information about its authorizer in other school
124.29 materials that it makes available to the public.

124.30 (f) Every charter school board member shall attend ~~ongoing~~ annual training
124.31 throughout the member's term on the board governance, including. All new board
124.32 members shall attend initial training on the board's role and responsibilities, employment
124.33 policies and practices, and financial management. A new board member who does not
124.34 begin the required initial training within six months after being seated and complete that
124.35 training within 12 months of being seated on the board is automatically ineligible to

125.1 continue to serve as a board member. The school shall include in its annual report the
125.2 training attended by each board member during the previous year.

125.3 (g) The ongoing board must be elected before the school completes its third year of
125.4 operation. Board elections must be held during the school year but may not be conducted
125.5 on days when the school is closed for holidays, breaks, or vacations. The charter school
125.6 board of directors shall be composed of at least five nonrelated members and include: (i)
125.7 at least one licensed teacher employed as a teacher at the school or ~~a licensed teacher~~
125.8 providing instruction under contract between the charter school and a cooperative; (ii) the
125.9 at least one parent or legal guardian of a student enrolled in the charter school who is not an
125.10 employee of the charter school; and (iii) ~~an~~ at least one interested community member who
125.11 resides in Minnesota and is not employed by the charter school and does not have a child
125.12 enrolled in the school. The board ~~may be a teacher majority board composed~~ may include
125.13 a majority of teachers described in this paragraph or parents or community members, or it
125.14 may have no clear majority. The chief financial officer and the chief administrator may only
125.15 serve as ex-officio nonvoting board members ~~and may not serve as a voting member of the~~
125.16 ~~board~~. No charter school employees shall ~~not~~ serve on the board unless other than teachers
125.17 under item (i) applies. Contractors providing facilities, goods, or services to a charter
125.18 school shall not serve on the board of directors of the charter school. Board bylaws shall
125.19 outline the process and procedures for changing the board's governance ~~model~~ structure,
125.20 consistent with chapter 317A. A board may change its governance ~~model~~ structure only:
125.21 (1) by a majority vote of the board of directors and a majority vote of the licensed
125.22 teachers employed by the school as teachers, including licensed teachers providing
125.23 instruction under a contract between the school and a cooperative; and

125.24 (2) with the authorizer's approval.

125.25 Any change in board governance structure must conform with the composition of
125.26 the board structure established under this paragraph.

125.27 (h) The granting or renewal of a charter by an authorizer must not be conditioned
125.28 upon the bargaining unit status of the employees of the school.

125.29 (i) The granting or renewal of a charter school by an authorizer must not be
125.30 contingent on the charter school being required to contract, lease, or purchase services
125.31 from the authorizer. Any potential contract, ~~lease~~, or purchase of service from an
125.32 authorizer must be disclosed to the commissioner, accepted through an open bidding
125.33 process, and be a separate contract from the charter contract. The school must document
125.34 the open bidding process. An authorizer must not enter into a contract to provide
125.35 management and financial services for a school that it authorizes, unless the school
125.36 documents that it received at least two competitive bids.

(j) An authorizer may permit the board of directors of a charter school to expand the operation of the charter school to additional sites or to add additional grades at the school beyond those described in the authorizer's original affidavit as approved by the commissioner only after submitting a supplemental affidavit for approval to the commissioner in a form and manner prescribed by the commissioner. The supplemental affidavit must document that:

- (1) the proposed expansion plan demonstrates need and projected enrollment;
- (2) the expansion is warranted, at a minimum, by longitudinal data demonstrating students' improved academic performance and growth on statewide assessments under chapter 120B;
- (3) the charter school is financially sound and the financing it needs to implement the proposed expansion exists; and
- (4) the charter school has the governance structure and management capacity to carry out its expansion.

(k) The commissioner shall have 30 business days to review and comment on the supplemental affidavit. The commissioner shall notify the authorizer of any deficiencies in the supplemental affidavit and the authorizer then has 20 business days to address, to the commissioner's satisfaction, any deficiencies in the supplemental affidavit. The school may not expand grades or add sites until the commissioner has approved the supplemental affidavit. The commissioner's approval or disapproval of a supplemental affidavit is final.

An individual is prohibited from serving as a board member if an immediate family member is an employee of the school. A violation of this prohibition renders a contract voidable at the option of the commissioner or the charter school board of directors. A member of a charter school board of directors who violates this prohibition is individually liable to the charter school for any damage caused by the violation.

(b) No member of the board of directors, employee, officer, or agent of a charter school shall participate in selecting, awarding, or administering a contract if a conflict of interest exists. A conflict exists when:

127.4 A violation of this prohibition renders the contract void.

127.5 (c) Any employee, agent, or board member of the authorizer who participates
127.6 in the initial review, approval, ongoing oversight, evaluation, or the charter renewal or
127.7 nonrenewal process or decision is ineligible to serve on the board of directors of a school
127.8 chartered by that authorizer.

127.9 (d) An individual may serve as a member of the board of directors if no conflict of
127.10 interest under paragraph (a) exists.

127.11 (e) The conflict of interest provisions under this subdivision do not apply to
127.12 compensation paid to a teacher employed as a teacher by the charter school ~~who~~ or a

127.20 school district may convert one or more of its existing schools to charter schools under
127.21 this section if 60 percent of the full-time teachers at the school sign a petition seeking
127.22 conversion. The conversion must occur at the beginning of an academic year.

127.23 Subd. 6. **Charter contract.** The authorization for a charter school must be in the
127.24 form of a written contract signed by the authorizer and the board of directors of the charter
127.25 school. The contract must be completed within 45 business days of the commissioner's
127.26 approval of the authorizer's affidavit. The authorizer shall submit to the commissioner a

136.7 An affiliated nonprofit building corporation must not serve as the leasing agent for
136.8 property or facilities it does not own. A charter school that leases a facility from an
136.9 affiliated nonprofit building corporation that does not own the leased facility is ineligible
136.10 to receive charter school lease aid. The state is immune from liability resulting from a
136.11 contract between a charter school and an affiliated nonprofit building corporation.

136.12 (c) A charter school may organize an affiliated nonprofit building corporation to

136.22 budget for the project.

136.23 (d) A charter school may organize an affiliated nonprofit building corporation to

The district must grant a leave not to exceed a total of five years. Any request to extend the leave shall be granted only at the discretion of the school board. The district may require that the request for a leave or extension of leave be made before February 1 in the school year preceding the school year in which the teacher intends to leave, or February 1 of the calendar year in which the teacher's leave is scheduled to terminate. Except as otherwise provided in this subdivision and except for section 122A.46, subdivision 7, the leave is governed by section 122A.46, including, but not limited to, reinstatement, notice of intention to return, seniority, salary, and insurance.

During a leave, the teacher may continue to aggregate benefits and credits in the Teachers' Retirement Association account under chapters 354 and 354A, consistent with subdivision 22.

An authorizer may unilaterally terminate a contract during the term of the contract for any ground listed in paragraph (b). At least 60 business days before not renewing or terminating a contract, the authorizer shall notify the board of directors of the charter school of the proposed action in writing. The notice shall state the grounds for the proposed action in reasonable detail and that the charter school's board of directors may request in writing an informal hearing before the authorizer within 15 business days of receiving notice of nonrenewal or termination of the contract. Failure by the board of directors to make a written request for an informal hearing within the 15-business-day period shall be treated as acquiescence to the proposed action. Upon receiving a timely written request for a hearing, the authorizer shall give ten business days' notice to the charter school's board of directors of the hearing date. The authorizer shall conduct an informal hearing before taking final action. The authorizer shall take final action to renew or not renew a contract no later than 20 business days before the proposed date for terminating the contract or the end date of the contract.

Before the commissioner determines whether to approve a change in~~

139.1 ~~authorizer, the proposed authorizer must identify any outstanding issues in the proposed~~
139.2 ~~charter contract that were unresolved in the previous charter contract and have the charter~~
139.3 ~~school agree to resolve those issues. If no change in authorizer is approved, the school~~
139.4 ~~must be dissolved according to applicable law and the terms of the contract.~~

139.5 (c) If the authorizer and the charter school board of directors mutually agree not to
139.6 renew the contract, a change in authorizers is allowed. The authorizer and the school
139.7 board must jointly submit a written and signed letter of their intent to the commissioner

139.22 dissolved according to applicable law and the terms of the contract.

146.30 **125A.0941 DEFINITIONS.**

146.31 (a) The following terms have the meanings given them.

146.32 (b) "Emergency" means a situation where immediate intervention is needed to
146.33 protect a child or other individual from physical injury ~~or to prevent serious property~~

147.1 ~~damage.~~ Emergency does not mean circumstances such as: a child who does not respond
147.2 to a task or request and instead places his or her head on a desk or hides under a desk or
147.3 table; a child who does not respond to a staff person's request unless failing to respond
147.4 would result in physical injury to the child or other individual; or an emergency incident
147.5 has already occurred and no threat of physical injury currently exists.

147.6 (c) "Physical holding" means physical intervention intended to hold a child immobile
147.7 or limit a child's movement, where body contact is the only source of physical restraint,
147.8 and where immobilization is used to effectively gain control of a child in order to protect
147.9 ~~the~~ a child or other person individual from physical injury. The term physical holding does
147.10 not mean physical contact that:

- 147.11 (1) helps a child respond or complete a task;
147.12 (2) assists a child without restricting the child's movement;
147.13 (3) is needed to administer an authorized health-related service or procedure; or

147.23 (g) "Seclusion" means confining a child alone in a room from which egress is barred.
147.24 Egress may be barred by an adult locking or closing the door in the room or preventing the
147.25 child from leaving the room. Removing a child from an activity to a location where the
147.26 child cannot participate in or observe the activity is not seclusion.

147.27 **EFFECTIVE DATE.** This section is effective July 1, 2013.

147.28 Sec. 4. Minnesota Statutes 2012, section 125A.0942, is amended to read:

The district must review use of restrictive procedures at a child's annual individualized education program meeting when the child's individualized education program provides for using restrictive procedures in an emergency.

(d) If the individualized education program team under paragraph (c) determines that existing interventions and supports are ineffective in reducing the use of restrictive procedures or the district uses restrictive procedures on a child on ten or more school days during the same school year, the team, as appropriate, either must consult with other professionals working with the child; consult with experts in behavior analysis, mental health, communication, or autism; consult with culturally competent professionals; review existing evaluations, resources, and successful strategies; or consider whether to reevaluate the child.

184.29 to credit reimbursements under section 273.1384 shall be based on the best estimation
184.30 available as of July 30.

184.31 (d) Notwithstanding paragraph (a), (b), or (c), no city or county shall reduce its
